

Below find the TF numbers for the Royal Artillery. Sorry about the format but the upload for some reason removes the spacing. The format is first the number range; then the designation of the Great War brigade (or battery); then the designation of the former TF Brigade. For example the number range 700001-705000 designates either 210 Bde, RFA TF which was originally the 1/1 East Lancs Bde, RFA TF or 330 Bde, RFA TF which was originally 2/1 East Lancs Bde, RFA TF. Regards. Dick Flory.
